

COURSING AHEAD

Anand Institute of Higher Technology (AIHT), a self financing engineering institution, was established in the year 2000 by the indefatigable and conscious efforts of our chairman Late Kalvi Vallal Thiru T Kalasalingam, Bcom. AIHT campus provides a perfect environment for natural learning surrounded by IT companies spread over 25 acres with a total built up area of around 15 lakhs sq ft.

The salient features of AIHT are, experienced and dedicated faculties with PhD, sophisticated and well equipped laboratories and digital library, separate personal development and placement department. The average overall pass percentage is 92 and above for the last four years. The placements statistics of 97 percentage shows AIHT to rank among one of top engineering colleges in Tamil Nadu. AIHT offers 7 UG courses and 6 PG courses.

ESTABLISHING A CENTRE OF EXCELLENCE

In view of the excellent laboratory facilities

and infrastructure, increasing R and D activities being carried out involving students for innovative projects, involving in training activities such as Infosys Campus Connect, WIPRO Mission 10X. The management has granted ₹40,00,000 for starting an Entrepreneurship Development Cell (EDC). ALL India Council for Technical Education (AICTE), had granted ₹8,00,000 for the EDC, to encourage and motivate the students to become future entrepreneurs. The cell has conducted various pro-

grammes skill development, entrepreneurship summit, special training on DSP at IIT, Madras, skill development programme on ANDROID for 80 engineering students and embedded systems thus paving the way for starting Entrepreneurship Development Cell and finally creating Innovation and Entrepreneurship Development

Cell (IEDC).

In AIHT, the National Instruments Lab View Academy was established in the year 2010, worth of ₹40 lakhs with the vision of establishing EDC to start innovating activities for motivation of students for becoming future entrepreneurs. All India Council for Technical Education (AICTE), government of India, had sanctioned ₹8 lakhs for the EDC at AIHT. The encouragement and motivation for students to become future entrepreneurs, the EDC cell of AIHT conducted various programmes for skill development, entrepreneurship summit, and special training on DSP at IIT Madras, skill development programme on ANDROID for 80 engineering students and embedded systems.

Some students successfully completed a course Certified Lab VIEW Associate Developers. 46 students of the EIE department received CLAD Certifications among the 215 Competitions. Two students of EIE have been awarded Lab VIEW Ambassador for their effective spreading of NI Technology. AIHT - ECE Department has been selected for AICTE-BSNL Employability Enhancement Training Programme (EETP) for 2013-14 and 2014-15.
