With a host of facilities and courses Anand Institute of Higher Technology is catering to the students of today

Anand Institute of Higher Technology (AIHT), a self financing engineering institution was established in the year 2000 by the indefatigable and conscious efforts of our chairman Late Kalvi Vallal Thiru T Kalasalingam, B com. AIHT campus provides environment for natural learning surrounded by IT companies spread over 25 acres with a total builtup area of around 15 lakhs sq ft.

The salient features of AIHT are, experienced and dedicated faculties with PhD, sophisticated and well equipped laboratories and digital library, separate personal development and placement department. The average overall pass percentage is 92 percent and above for the last four years. The placements statistics of 97 percentage shows, AIHT ranks about one of top engineering college in Tamilnadu. AIHT offers 7 UG courses and 6 PG courses.

Faculty Competences 29.06.2015

Nearly 200 faculty members, (80 male, 120 female) with the supporting staff 110 working in administration and technical departments. Nearly 43 faculty members are pursuing the PhD programme. The contribution, from the faculty members, includes: 1. Contributing research papers for publishing in national and international conferences and national and international journals. 2. Executing sponsored projects from private and public sectors 3. Conducting workshops, seminars and conferences 3. Bridging curriculum gaps 4. Writing text books. Nearly 60 research publications were made last year. Besides, faculty members are involved in, as resource persons in FDP and training activities.

Faculty Interaction with outside world :

Special Address on embedded systems conference specially sponsored by IEEE Advancing Technology for Humanity (EIE) Invited, for discussion for development activities, by Adaptavant Technology Solutions, Chennai (CSE).

Establishing, campus connections and relations for students projects with CMC, Ltd, Chennai (CSE).

AIHT mechanical department students contested at CART BAJA (A National Level Car Fabrication) organised by SAE at Pithampur, Madhya Pradesh in February 2014 and obtained 64th position out of 150 teams also contested ECOCART, a National Level Electric Operated Vehicle (Design Competition) organised by SAE in Noida, Uttar Pradesh and obtained 12th position out of 125 teams.
